You have been selected to provide pricing for the above referenced project. Subcontractors and suppliers who have been selected to provide pricing will be invited to participate on the 100% Bid Document "short list", which will be the basis of award. Please take a few minutes to review and fax this notice back to me at **904-296-6990** or e-mail to lbryant@auld-white.com with your intention to bid. CD's containing project plans will be available at our front desk Wednesday, July 21, 2010, after 10:00 a.m. and project documents will be posted to the Bid Room of our website – www.auld-white.com on Wednesday, July 21, 2010.

BID SCOPE:

Two story, marine and land based fire station consisting of concrete tilt wall construction, structural decking, bar joist and metal deck roof system, single ply roof system along with interior and exterior finishes. Work includes site work, fire protection, plumbing, mechanical and electrical systems. Building design for 150 mph winds at three (3) second gusts.

Construction to begin August, 2010.

Project documents can be viewed/downloaded directly from our website by using the following:
