Re: NFCU River City Marketplace / Pre-Bid RFI #05

1. Reference Drawing AE201 Special Brick Shapes. The specified manufacturer, General Shale, does not routinely make these general shapes and has requested clarifications for the special shapes A & B.
 - A. The height shown 2'-11/16" is not a modular brick height of 2'/4". Detail A5/AE302 indicates 3 courses – equals 8" inches. Please clarify.
Modular brick height shall match Detail A5/AE302. 3 courses plus mortar
Reply shall equal 8".
 - B. What faces of the brick are finished. Please clarify.
Reply Front face and both ends.
 - C. We assume corners are mitered since a special outside corner shape is not shown. Please clarify.
Reply Yes, please provide mitered shape brick at outside corners.
 - D. The local distributor and manufacturer have advised us that these bricks are not available in a FBX specifications. Please clarify.
Reply FBS specification is acceptable.

Additional questions to follow.

Sincerely,

Louis A. Dunbar/ Chief Estimator
