## DESCRIPTION

Auld & White Constructors was retained by T.T. of Pickettville to construct a new 50,650 sq. ft. Chrysler Dodge Ram + Jeep dealership on a ten-acre site just West of Jacksonville. The dynamic new dealership features two tones of ACM cladding on its east elevation to highlight its customer-facing facade. The combination of interior finishes in the showroom and offices creates a luxurious space that allows customers to browse and wait in comfort. Other highlights of the building are a full lounge with accessories retail display area, parts shop, service drive-thru, carwash, and quick lube. The project was completed in an accelerated ten month time frame.
