ST. AUGUSTINE, FL

SIZE

4,100 SQ FT

COST

\$1,888,000

ARCHITECT

PQH GROUP

DESCRIPTION

Auld & White Constructors was retained by Flagler Health to complete its CareFast+ urgent care facility in St. Augustine, Florida. This new one-story stucco building, located on the Flagler Hospital campus, incorporates a wide expanse of storefront windows to take advantage of the Florida sun for daylighting. The interior uses light colored walls to create a calming effect. The areas within are welcoming and designed to optimize space, improve efficiency and engagement, and ultimately provide a better patient experience. Through coordinated efforts with the team on site, the time-sensitive project was turned over ahead of schedule. The advanced hand-off provided the facility additional time to serve the St. Johns County community as an affordable solution for non-emergent healthcare needs.
